Cambridge Assessment English Results Verification Service

Cambridge Assessment English have introduced a Results Verification Service to help organisations, individuals and agencies validate quickly and securely candidates' Cambridge English qualifications results.

Cambridge English qualifications are taken for a variety of reasons, including recruitment, admission to academic institutions as well as immigration to Australia.

- **Educational institutions**
  can use the service to verify that international students have the right level of qualifications to study at their institution
- **HR departments and recruitment agencies**
  can use the service to recruit people applying for work effectively
- **ADIBP**
  can use the service to verify migrants' results, to check if they match their entry requirements

The Results Verification Service has been developed and is directly run by Cambridge Assessment English so you can trust the quality and security of the site (https://verifier.cambridgeenglish.org/).

- **Security** – each candidate ID is unique and can only be provided by the candidate
- **Quality** – developed and operated directly by Cambridge Assessment English
- **Effective** – applicants results can easily be verified
- **No charge** – the service is free to use anytime, anywhere
- **Accessible** – this web-based service is accessible to anyone the candidate nominates

The Results Verification Service can be used by anyone who has been given permission to verify a result by the certificate holder. Access to the site is granted on successful completion of a simple online registration process.

- **Register** to create a user account for the site
- **Sign in** to access the result verification page
- **Verify** the result.

To Sign in two key data values are needed: the **candidate's ID number** and **candidate's secret number, which the candidates have in their exam timetables**. By sharing this information, the candidate gives their permission for result verification.

Results for the following exams can be verified using this service:

A2 Key (KET)
B1 Preliminary (PET)
B2 First (FCE)
C1 Advanced (CAE)
C2 Proficiency (CPE)
B1-C1 Business (BEC)

An additional security feature will be present with the result in the form of a Test Day Photo, which is taken on the exam day and then uploaded to the Result Verification Site as a further proof of the candidate's ID. Please note that since 2017 this service is only applicable to FCE, CAE and CPE exams.
